

NAME :

Understanding AI & Responsibility

What is AI? (Warm-up)

In your own words, explain what Artificial Intelligence (AI) is:

Explain your answer:

Give one example of where you see AI being used:

Benefits vs Risks of AI

Complete the table below:

Benefits of AI

Risks of AI

Why do you think AI needs to be used carefully?

AI always gives correct answers. True / False

Using AI can affect other people. True / False

Online actions do not matter if no one sees them. True / False

Smart Tech, Safe Choices

Before using AI and the Internet, ask yourself

Is it
truthful?

Is it
beneficial?

Would I be
comfortable
answering for
this to Allah?

And always remember:

Knowledge
is an Amanah

Devices
are an Amanah

Online Access
is an Amanah

اتَّقِ اللَّهَ حَيْثُمَا كُنْتَ

“Have taqwa of Allah wherever you are...”
